EDUCATION

Aditya University,Surempalem

2025-2028

Artificial Intelligence And Machine Learning, Bachelor Of Technology

WORK EXPERIENCE

Quality Control & Software Testing Executive, Skyquard Electronics & Appliances Pvt. Ltd.

- Analyzed product and software data for quality assessment, applying basic machine learning concepts to identify patterns and defects.
- Assisted in testing software models and validating outputs to ensure accuracy and reliability.
- Conducted manual testing, data verification, and product quality checks to maintain quality standards.
- Documented and reported defects, test results, and observations to the technical team, contributing to overall product performance improvements.

PROJECTS

Super Vision for Blind People

- Developed a voice-based assistive system using Raspberry Pi to help visually impaired users interact with devices through speech commands and audio feedback, enhancing accessibility and independence.

Vocal text using reberry pi

- Developed a voice-to-text system using Raspberry Pi that converts spoken words into text.
- Used a microphone module and speech recognition techniques to process voice input and display the corresponding text output.

SKILLS

Programming	Java,C,C++,Python
Web Development	HTML, CSS
Tools	Visual Studio,pycharm
Concepts	Machine Learning,DBMS ,OS

CODING PLATFORMS

[Leetcode](#) . [CodeForces](#) . [Codechef](#) . [Hackerrank](#) .

CERTIFICATES

CCNA Certification – Gained knowledge of networking fundamentals, routing, switching, and IP addressing
Embedded Systems Workshop – Hands-on experience with microcontrollers and embedded programming
